rs, I will be receiving
when I arrive in

Athens."

Toogood has been waiting to receive her final security clearance and last week she was notified that she will be traveling to Athens and upon arrival receive her acceptance letter. Toogood had applied for the opportunity to volunteer her skills as a massage therapist to work with the Athens Health Services Massage Team earlier this year. She was contacted a few

weeks ago and asked if she was still available to go, but was required to put her travel plans on hold until a series of paper-work had been filed.

In the meantime, she had already purchased her tickets, made housing arrangements for her stay in Greece, and the only thing left to do was wait.

She is scheduled to leave July 25 and return Aug. 15.

Toogood will be working with the athletes in the training por-

tion of the Olympic she excited about me therapists.

"I am just looking working with International Massage therapists and letes," she said.

"It's going to be great from other massage from Great Britain, S Denmark."

Twenty different U will be represented at the massage team in /
